Experience

Gensler | Technical Designer

Washington DC | Aug 2021 - Present

- Conduct design charrettes/workshops to identify key concerns for clients and develop design narrative
- Translate clients' brand identity and objectives into physical spaces to support design narrative
- Develop multiple concepts for interiors projects to enhance human experience through color, form, materiality, etc.
- Communicate design intent to clients and stakeholders through graphic presentations, 3D renderings, and virtual demonstrations
- Collaborate with internal team and consultants across multiple platforms to develop design and identify coordination issues
- Identify and resolve construction issues on site with general contractors to ensure design intent is fulfilled
- *Design Technology Champion* - advocate and implement new software and technology to track project metrics and streamline design process

Booth Hansen | Architectural Intern

Chicago, IL | May 2020 - Aug 2020

- Spearheaded research and schematic design of several housing units for Chicago's ADU initiative
- Identified and defined critical parameters and limitations for ADU design process
- Translated research insights and ideas into understandable concepts to identify opportunities for creative solutions
- Prepared and documented graphic drawings for marketing

Gensler | Professional Intern

Washington DC | May 2019 - Aug 2019

- Developed space plan options during schematic design phase to enhance client's experience
- Collaborated with design team to assemble material palette and sketch design concepts for office interior projects
- Prepared graphic presentations to communicate design intent with clients
